One of the key challenges is to create a sustainable and integrated healthcare system. As a response to contemporary challenges, the SI4CARE project aims to improve the overall quality and efficiency of healthcare services, including social care, in the context of an ageing population. In many countries, there is a need for more integrated and coordinated healthcare services, particularly for the elderly, with a focus on improving the quality of life for those living with long-term conditions. The SI4CARE project, in collaboration with a wide range of partners, aims to develop and implement innovative solutions and strategies to help address these challenges. The project seeks to improve the overall quality and efficiency of healthcare services, including social care, in the context of an ageing population. In many countries, there is a need for more integrated and coordinated healthcare services, particularly for the elderly, with a focus on improving the quality of life for those living with long-term conditions. The SI4CARE project, in collaboration with a wide range of partners, aims to develop and implement innovative solutions and strategies to help address these challenges.

Launch Event

The SI4CARE project activities were supported by the contribution of the European Regional Development Fund (ERDF) and the European Social Fund (ESF) under the “Slovenia 2020” Operational Programme (2007-2013) as well as by the Autonomous Region of Lombardy (Italy) and the Autonomous Province of Trento (Italy) from the ERDF and the ESF under the “Slovenia in Europe” Operational Programme (2014-2020). The project activities were also supported by the contribution of the European Social Fund (ESF) under the “Youth in Europe” Operational Programme (2014-2020) as well as by the Autonomous Province of Trento (Italy) and the Autonomous Region of Lombardy (Italy) from the ESF under the “Slovenia in Europe” Operational Programme (2014-2020).

Project and Associated Partners

Project Partners in SI4CARE are:

1. University of Ljubljana
2. Jožef Stefan Institute
3. University of Padova
4. The Ministry of Health of Slovenia
5. Municipality Krško (Slovenia)
6. Health Insurance and Reinsurance Institute of Federation of Bosnia and Herzegovina
7. The Ministry of Health of the Republic of Croatia
8. Public Institution RERA SD for Coordination and Development of Split-Dalmatia County (Croatia)
9. Regional Agency for Social Innovation and Entrepreneurship in the Province of Trieste, Italy
10. Region of Central Macedonia (Greece)
11. Public Institution RERA SD for Coordination and Development of Split-Dalmatia County (Croatia)
12. Municipality of Mortara (Italy)
13. Municipality of Udine (Italy)
14. Region of Calabria (Italy)
15. Calabria Region (Italy)
16. Region of Campania (Italy)
17. Ministry of Health of Slovenia
